Instantly generate an expert quality Color Map with one click! Save time and deliver better work! An award-winning program that provides 77a5ca646e

Cyotek Palette Editor is a fast, small, effective, and intuitive tool that helps users manage and generate color palettes from scratch. It lets you create, preview, and edit colors in a variety of formats, as well as export them. Cyotek Palette Editor allows you to create brand-new color schemes, preview them, copy, export them as PNG, JPG, GIF, TIFF, PSD, Adobe RGB, and CMYK files, and manage all palettes and swatch images in one convenient place. The application can also build your custom palette based on an existing scheme, and can generate HTML swatch sheets, search through palettes based on various parameters, generate LUT files from color codes, and is 100% free. What's New v1.3.7: Fixed: Editor stops working after you switch to a specific color. v1.3.6: Fixed: The "Copy color" option is missing in "Create color palette" option. v1.3.5: Fixed: Color swatch order is no longer correct after copying a color to the clipboard. v1.3.4: Fixed: The "Duplicate palette" option deletes palette instead of duplicating it. v1.3.3: Fixed: The "Duplicate color" option is missing in the "Create color palette" option. v1.3.1: Fixed: When you double-click a color to edit its properties, the "Import swatch image" option is missing. v1.3: Added: The ability to create custom color schemes and templates. Added: The ability to export color palettes and color palettes to PNG, JPG, GIF, TIFF, PSD, Adobe RGB, and CMYK formats. Fixed: The order of colors in a palette is no longer correct after importing some colors. Fixed: Deleting an image does not cause any prompt. Fixed: The "Hide palette" option does not work properly after you change the master palette. Added: If you find a duplicate color in a palette, you can select it and use "Delete duplicate" to delete it. v1.2.1: Fixed: "Add color to palette" option does not let you add hex, RGB, CMYK, or HSB colors to palettes. Fixed: The "Apply to all" option

What's New in the Cyotek Palette Editor?
