Medication abortion with mifepristone and gemeprost versus medical termination of pregnancy with misoprostol: a prospective randomized trial. A large proportion of women in the United States choose medication abortion as an alternative to medical termination of pregnancy (mifepristone and gemeprost versus misoprostol). The long-term safety of mifepristone and gemeprost for termination of pregnancy is unclear. It is also unknown whether the efficacy of mifepristone and gemeprost is similar to that of misoprostol. To test the relative safety and efficacy of mifepristone and gemeprost versus misoprostol for early pregnancy termination. A randomized trial was undertaken in a university hospital. While the über-successful TV show *Girls* made its final bow this week, the final episode of *30 Rock*, the NBC series that became as much about the show itself as it was about the people who made it, will air its last season in June, ending the saga of a once-mighty empire that never quite found its way. Does the show deserve to end at this point, or has it made its contribution? Let's be honest. While some fans of the series may not be thrilled with the final season -- in part because of the audience uproar that hit when Tina Fey, her friends, and the Writers Guild of America showed up at the party just as the last episode was about to air -- the show now looks like a stalwart sitcom rather than the groundbreaking show it was. It's clear that *TGS* was going to end up with a whimper rather than a bang, so why complain? It was the creative culmination of a century-plus of television, and it knew the nature of the beast. The last season runs once more through the poignant friendship between Liz Lemon (Fey) and Jack Donaghy (Alec Baldwin). They're pals again, closer than ever, until Jack goes behind Liz's back and the two begin to fall out, thus taking the one place they could ever have together -- the company -- into the broken state it finds itself in at the end. If you consider the fact that Liz has, in the final years, raised all of the issues that make *30 Rock* so funny and insightful, the show now rings completely hollow. She's been there for virtually every major character, and the key characters have developed into caricatures. Jenna (Jane Krakowski) and Tracy (Tracy Morgan) are still as selfish and disloyal as ever, while Kenneth (Jack McBrayer) is still a simpleton, but the series can't help them very much. The first season was so funny because of the satirical look at the nature of the sitcom. It was about how, no matter how 'clean' the set, or how carefully the costume designers crafted the clothes, or how well-written and directed the show was, the road that leads to the show's ever-widening fame is very, very rocky and hard to maneuver. The series was wildly, outrageously funny, but it was so tightly wound that it could hardly release it. Taken into its final season, it's almost as if the
